Public Information Session #7

September 21, 2016

McMurray Experience // 5 - 7 p.m.

Public Participation: 15 residents

Internal Participation: RMWB, Wood Buffalo Recovery Task Force

Partner Participation: Canadian Forest Resources Ltd

Summary from Residents:

- Session topic: Hazardous Tree Removal
- Most residents that attended were from Thickwood
- Residents were happy to hear that care would be taken to remove the trees and that only the necessary trees would be removed – anything that could be saved would be
- Most residents left feeling more informed and understood why the work needs to be done
- Residents were happy to know that the leftover wood would be made available for them to use
 - However, there were some concerns about where the wood stockpiles would be located
- Residents asked how this was different from Fire Smart and the Fire Breaks – this question was well managed by the RMWB Park's team and the Contractor

Unanswered Resident Questions:

- What does the reforestation plan look like?
- How were these areas selected? Why wasn't my area selected? Why wasn't more of a particular area selected?
