

GOOGLE TRANSIT REAL-TIME UPDATES

Plan, track, arrive! Get real-time updates on your transit route with the live-tracking feature in Google Maps. If you don't already have the Google Maps app on your phone, install it from the Google Play or Apple App stores.

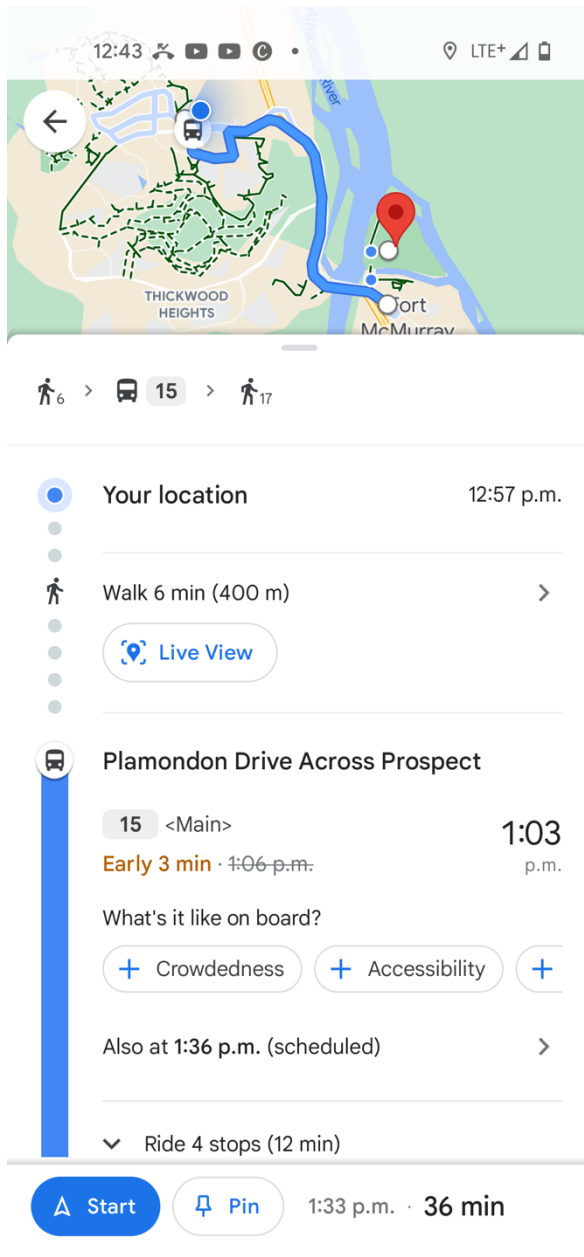

1. Open the Google Maps app. 
2. Tap the directions button in the bottom right or select the search bar at the top to start a directions search.
3. Enter your destination and click "find my directions."
4. Choose the Transit icon.

5. Review the recommended route options. You should see early, on time, or late here in the previews.

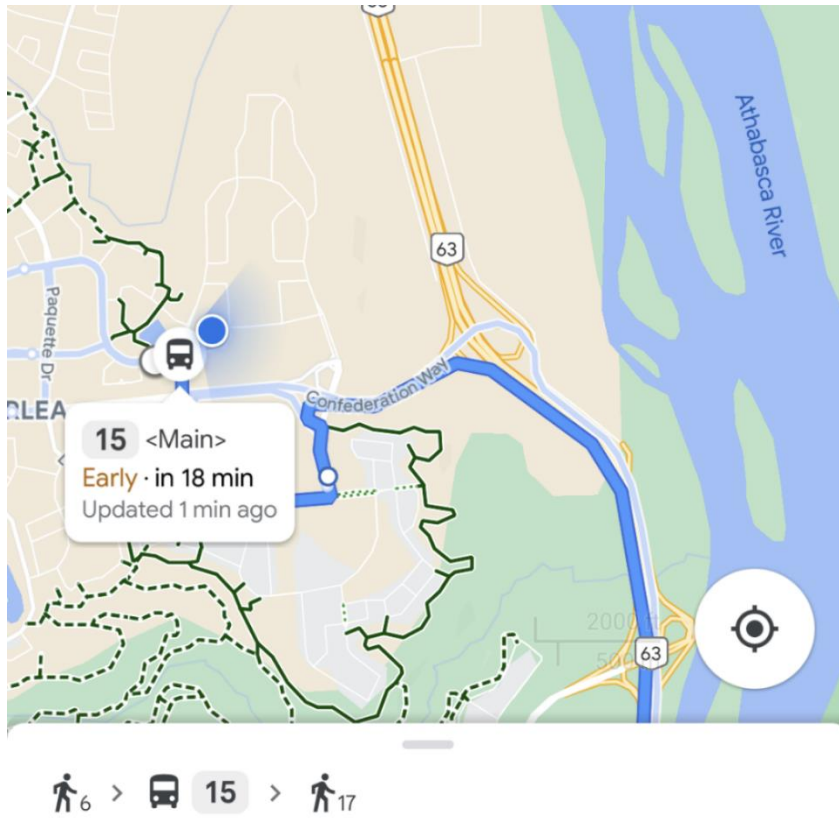

GOOGLE TRANSIT REAL-TIME UPDATES

6. Tap one of the routes given to see the details. Don't click the Live View link, this is an unrelated feature of Google Maps.

GOOGLE TRANSIT REAL-TIME UPDATES

7. On the map you will also see an icon of where the bus is, and you will see it move every few minutes as it gets an update:

8. Await the arrival of your bus to start your trip!
