COMMUNITY NOTICE

How rural winter maintenance works in your community

Winter maintenance in rural communities is done by municipal contractors, and includes:

- Snow plowing and snow removal.
- Sanding/salting asphalt roadways whenever needed to create a safe driving surface.

Snow plowing in your community:

- Primary (high-traffic) roads are plowed within 24 hours of snowfall.
- School routes will be plowed within 24 hours for easier school pick-up and drop-off.
- Secondary roads are plowed within 48 hours.
- Gravel roads are plowed within 72 hours.
- Contractors will try to remove windrows (snowbanks) at residential and commercial driveways where possible.

Snow removal in your community:

- Contractors start snow removal when snowbanks are too high and block safe sightlines at intersections.

Help your community with winter maintenance:

- Remove garbage and recycling bins from the roadside to leave room for plowing.
- Do not shovel/push snow onto the road or into ditches, as this creates flooding issues in the spring.

More details are available at rmwb.ca/snowplow

JANVIER

WATER AND SEWER PROGRAM

The 2025 construction season is well underway, and you shouldn't wait any longer to start the process to connect your home to piped water and sewer services.

Why connect your home through the Rural Water and Sewer Servicing program?

- Save a lot of money. The Municipality is offering 0% financing and covering a large portion of your cost. This offer won't be available forever, so don't wait to connect.
- Say goodbye to trucked water deliveries and sewer pickup. Once the connection window closes, the Municipality will no longer be helping arrange these services for homes. It will be your responsibility as a homeowner to coordinate and pay for these services, which can cost hundreds of dollars monthly.
- Increase the value of your home. Adding piped water and sewer services should increase the value of your home by more than the cost to connect through the RWSS program.

How do you connect?

- The first step in applying to connect your home is choosing a certified contractor and asking them to prepare a quote and discussing what this work will entail. A list of certified contractors is available on the municipal website.
- You're in control of the entire application process, but your contractor can take the lead on everything if you prefer.

Need help?

Connecting your home to piped water and sewer may seem complicated, but we're here to help guide you through the process. Visit your local municipal office or call 780-743-7000 to learn more and ask questions.

Find everything you need to know about the Rural Water and Sewer Servicing Program, including how to apply at rmwb.ca/rwss

WHERE ARE SUPPORTS NEEDED?

Your feedback is shaping a 10-year strategy to strengthen safety and social well-being, identifying community priorities in supports for seniors and Elders, programs for youth and children, transportation, and cultural services.

Stay involved and informed

- Participate online at rmwb.ca/socialwellbeing
- Complete a paper survey or quick poll at your local municipal office
- Chat at an upcoming rural community open house

Feedback will help show where supports are strong, where gaps exist, and how to improve access and connection.
